

HC48100-4U

48V 100Ah LiFePO4 Battery

Brief Introduction:

- Haicen Power, ISO9001 certified factory, mainly focus on the R&D of : 1)12V to 48V LiFePO4 Batteries used for RV, Marine, Energy storage, Golf carts applications. 2) 48V LiFePO4 batteries for Energy storage system.

Key Benefits:

- Higher qualified cylindrical cell:**
UL1642, IEC62619, IEC62133 listed with Cycle life more than 3000times and excellent consistency.
- UL1973 certificated battery pack:**
UL1973 certification means higher quality and safety, easier to win more markets and more challenging projects.
- Easy to install without extral cost:**
The modules can be stacked one by one to get morecapacity easily with our simple side plate design, and also can be compatible with most of inverter brands.
- More stable and firm internal structure:**
Cell holders can well protect and separate the cells to avoid any circuit short risk caused by vibration or impact or over current, and improve the heat dissipation.

Key Points for Quality control:

- Cell match:**
More strict cell matching standard, the difference of Internal resistance is 1mΩ and voltage is 5mV.
- Automatic cells welding:**
Cells are assembled by Automatic welding equipments to ensure the quality reliability and consistency.
- 100% Cycle test:**
All battery packs are 100% cycle tested (Fully Discharged→Fully Charged→Fully Discharged→60% Charged) before pack-age and all test reports are stored.
